Grands Defeat Maple Leafs From Lethbridge

The Coleman Grands, currently leading the ABC & M Hockey league, continued to show their power as they upset the highly-rated Lethbridge Maple Leafs, current leaders of the Big Six Hockey league, 7-1 at the local arena last Saturday night.

The Grands, playing without the services of Ed Byler, Alf Anderson and Bill Mosson, led only 11 players for the game against 12 for the Leafs, MacLean, Gibson and Stashuk were the absentees on the Lethbridge team.

The win was a team effort as the Coleman players constantly back-checked and fore-checked to keep Lethbridge off balance all night.

The lively crowd on hand cheered the Grands for their strong defensive play in the first period as they were short-handed for a total of 9 minutes.

Zahn of Lethbridge scored the only goal of the night for Leafs, while Coleman was short-handed. The lead of 1-0 at the end of the first period was the only time the Leafs were ahead.

Coleman continued to press in the second period and finally took complete command as Allen scored twice while Kryczka, Gotsman and Filwich added singles, to give Coleman a 5-1 lead at the end of the second period.

The third period saw Coleman continue the pressure as Allen scored his third goal of the night and Churla added a single for good measure to end the game with Coleman the victors by a 7-1 margin.

The Grands to date have not been beaten by a Big Six league team as they have beaten Lethbridge 7-1 and Okotoks 4-2, while tying the other game with Okotoks 3-3.

The fans of the Crown's Nest Pass were well pleased and showed it by their chatter. It showed also that the only difference between the ABC & M hockey and Big Six hockey is the extra publicity given to the Big Six hockey league.

Grands Wallop Taber 10-1

The Coleman Grands continued to dominate the ABC & M hockey league as they soundly trounced the Taber Chiefs 10-1 at the local arena last Sunday afternoon.

Ted Kryczka led the Coleman attack with four goals while Filwich and Churla added two each.

Barry Fraser and Jerry Scodelaro added singles while Haynes scored the only goal for Taber to prevent Roy Silvers from raining a shut-out.

The win gives Coleman eight wins against one loss in ABC & M league play to date.

Of Many Things

By Ambrose Hills

ARE YOU BLUE?
Anybody in the audience feeling blue? Well, Mister, I can tell you how to cheer up, but fast!
Simply get up off whatever you are sitting on and do something fine for somebody else. Try it—go on! Go and give your wife a kiss, or pat one of your youngsters on the head, and make yourself smile. Everybody gets blue. Everybody can get over it. Abe Lincoln tells us that the average man is about as happy as he makes up his mind to be. So make up your mind, buddy!

When I get blue I lecture myself. I have a few 3 by 5 filing cards on which I type out things I like to remember. One of the items is a cheerer-upper, written long, long ago by some fellow called Marco Morrow. I read it this morning when I got out of bed tired and gloomy, with a head cold and too much work ahead of me—work which I could have had done if I'd been less lazy. I'd like to pass those words along to you. Cut them out and paste them in your hat.

"It is a glorious privilege to live, to know, to act, to listen, to behold, to love. To look up at the blue summer sky; to see the sun sink slowly beyond the line of the horizon; to watch the worlds come twinkling into view, first one by one, and then myriads that no man can count, and lo! the universe is white with them; and you and I are here."

Cynics may point out that here in Winnipeg, where I'm writing this, the temperature is 22 below this morning; the sun is getting up, not sinking, the sky is grey with clouds, and the smoke from the Central Heat plants is pushed straight south by the icy wind. Sure, that's so. But the frost is lovely on our windows, the den where I write is warm enough, the smell of percolating coffee reaches me, the rent is paid for this month, and I'm alive.

Best of all, I'm the white-haired

boy around home. This morning, at breakfast, I said to my wife, "Boy, you're looking lovely this morning." She was, too, but she nearly dropped dead with surprise when I said so. Giggled, too. And suspiciously asked me what deviltry I was up to. I didn't tell her. I'm not going to tell you, either!

NATIONAL HEALTH WEEK

National Health Week will be celebrated in 1959 for the 15th year from February 1st to February 7th, inclusive.

National Health Week in Canada has been for some years the most outstanding annual publicity event in the Dominion.

It has been made so by the support of thousands of people all over the country. The object of National Health Week is to permeate the entire country with educational material from all legitimate sources, in order that during one week at least in the year all may have the opportunity of getting the facts not only as to the seriousness of disease but as to the means which should be taken to combat disease.

The public have been so occupied with the importance of looking after people when they are sick they have forgotten that it would be much better to keep people well and vigorous. People even speak of "health insurance" when they mean "sickness insurance".

So-called "health insurance" as it is generally understood, does nothing but provide for the care of people who are sick. During National Health Week, dentists, nurses and nutritionists, will combine with national societies in the field of health to utilize all of the media of publicity and co-operate to carry the message of health to all parts of the country.

For those who deary the importance of weeks of any kind, it is pointed out that by the device of National Health Week the co-operation of all national publicity media is ensured to the end that or press, in the church or in the by radio, television, by pamphlet school, every single citizen in Canada will have the opportunity of learning something of every phase of health.

It is recognized that every week should be a health week, but it is only during Canada's National

Health Week that it becomes possible to use all national publicity media to the end that everyone be informed.

Promotion folders, giving full information as to what any group in Canada may do to help promote National Health Week, are available to all who care to ask for them. It is hoped that our readers information about health in their will do their best to help spread various communities.

The letter reads: "The town of Springhill, Nova Scotia, appreciates deeply your expression of sincerity in our hour of trial and gratefully acknowledges your contribution to our need. Faithfully yours, R. F. Gilroy, mayor."

X-rays Credited With Saving Millions of Lives

Calgary. — Dr. Douglas F. Lawson of Calgary, says that X-rays used for diagnostic and therapeutic purposes can be credited with saving many millions of lives.

Dr. Lawson, president of the Alberta Chiropodist Association, was speaking to more than 30 doctors attending a special dinner meeting of the association Wednesday night in the Palliser Hotel.

He said the alarm surrounding the taking of X-rays was unjust when government reports show — "that as many people have lived because of X-ray usage for diagnostic and therapeutic purposes as have lost their lives in wars since 1900 — and this would amount to millions."

Chiropodists use X-rays for diagnostic purposes only, and that radiation exposure can now be reduced to one-twentieth of previous intensity without any loss of detail on the X-ray film.

"There is far more natural radiation in our bodies than an average person would receive from diagnostic or therapeutic X-rays over a 30-year period," he added.

He suggested that anyone who requires diagnostic X-rays should be provided with an exposure record card, thus "ensuring that a patient will receive only the amount of radiation considered within the normal limits."

He said such cards should be issued by dentists, hospitals, radiologists and chiropodists so that "it would make possible an accurate check on every patient to ensure each one of the maximum protection from over-exposure."

He told the meeting that the present X-ray scare "has got out of control," and that fear is certainly a greater handicap to the health and welfare of the nation.

Satellite Cafe Opens In Coleman

A new business establishment opened in Coleman Saturday when some 200 children received free ice cream and over 150 adults were treated to donuts and coffee.

The new business is the Satellite Cafe, located at the east end of Coleman on number three highway. A self-service grocery store and meat department, also a part of the business, will be opened up in the next few weeks.

The new business is a family venture which includes Louis Bubniak and two sons-in-law, Albino Peressini of Blainmore and Gino

Quarin of Natal, B. C.

Mr. Bubniak, well known in Coleman, formerly operated a grocery and meat store in Coleman until four years ago, when the business was razed by fire. Since this time Mr. Bubniak has worked for various stores in Coleman as butcher.

The newly built building has been decorated on the interior with rose, turquoise and complementing colors. The cafe features horse-shoe type counters, and also has several tables for family meals. The kitchen is fully modern and fluorescent lights and oil heating make the premises very comfortable.

Mr. and Mrs. Albino Peressini will operate the cafe while Mr.

Bubniak and Mr. Quarin will take over the grocery and meat departments. The cafe will be open daily until 12 midnight, and later in summer if necessary. The grocery store and meat department will abide by local store closing hours.

Home & School Assn. Hold Monthly Meeting

The regular monthly meeting of the Coleman Home and School Association was held Monday, January 19 in the high school auditorium.

President Mildred Zak was the chairman of the meeting.

The members present agreed to hold a whist drive followed by a pot luck supper on Saturday, February 7 at 7:30 p.m. in the Elks

hall to raise funds.

Anyone wishing to become a member may pay their fee of \$1 to the treasurer that night.

A charge of 50c will be made for the whist drive and supper.

A review of the by-laws of the local association was read by the secretary, E. Upton. The attendance prize for the evening went to Mrs. Coover's grade five class, with 18 parents present.

Mr. Horace Allen, principal, gave an interesting account of school news. A film from the Department of Extension, called "Those Terrible Two's and Three's" was most interesting to all present.

There are now 91 paid-up members in the Coleman group.

The next regular meeting will be February 16. The program will be announced at a later date.
